

## Thursday, October 8

11:30-11:50am

### Oximacro®, a Cranberry Extract with the Highest Content of A-Type PACs on the Market

As part of Faravelli Group, we are specialists in raw materials distribution. Our nutraceuticals portfolio includes minerals, excipients, yeasts, antioxidants, sugar and derivatives, vitamins, proteins, fibers, herbal extracts, natural carotenoids. One of the most innovative products in our range is Oximacro® by Biosfered, a cranberry extract with the highest content of A-Type PACs on the market, an ingredient providing a strong protection against urinary tract infections (UTIs).

#### Speaker

Massimo Maffei, R&D and sales director, Biosfered
